

Vestey Foods

1.2 Environmental Policy

"A Dynamic Family Food Business, Built On Traditional Values And Sustaining Our Place In Today's Global Marketplace Through Innovation And Efficiency".

Vestey Foods UK Ltd (VFUK) is a service provider for the management of procurement, storage, contract packing and distribution of food products.

The company's objective is to minimise our environmental impact whilst we continue to meet our obligations to supply safe and legal products that meet or exceed our customer / consumer's expectations. To accomplish this, we have implemented procedures and systems to identify and minimise environmental impacts as part of our Business Management System (BMS).

We are committed to the continual improvement of our environmental performance and the prevention of pollution. We achieve this by setting and reviewing objectives for environmental performance based on our assessment of the most significant environmental impacts of our operation.

We are also committed to complying with all applicable legal requirements, with the requirements of ISO 14001:2004 and with other requirements to which we subscribe relating to environmental performance; including the United Nations Global Compact.

Our Environmental Policy is understood by all key personnel and communicated to all new staff when employed. All VFUK employees contribute to ensure that the objectives for Environmental Management are met at all times. The Environmental Policy is reviewed annually for continued suitability and is made available to all staff once reviewed.

Kenneth Hermansen
